## TWO NEW VERSIONS FOR THE ALPINE A110 AT THE GENEVA INTERNATIONAL MOTORSHOW

- **A110 Pure continues the minimalist approach of the A110 Premiere Edition**
- **A110 Légende adds extra comfort and refinement**

A110 Pure and Légende remain true to Alpine's timeless principles of compact size, lightness and agility.

Both versions share the same full aluminium structure, 252hp 1,8l mid-mounted engine, mated to a wet clutch, 7-speed DCT gearbox, double wishbone suspension front and rear.

- **Pure** is the A110 at its lightest and most driver-focused. It is destined to live its life on winding mountain road and retains the Premiere Edition's minimalist yet high-quality approach.
- **Légende** adds more refinement and sophistication for everyday driving or long distance touring. Standard equipment includes 6-way adjustable lightweight Sabelt seats, full leather upholstery and gloss-finished carbon fiber interior trim.

Three new paint colours are added to the Alpine range: Blanc Irisé, Bleu abysse and Gris Tonnerre.

Pricing of the A110 Pure and Légende will be announced during Alpine's press conference on March 6th @9.30am (hall 4242).
